## PROJECTS

### Employee Management Dashboard (Full Stack Web App)

06/2025 - 07/2025

Built an employee dashboard using **React.js**, **Node.js**, and **MySQL**. Used **JWT** for secure login and session control. Added **manual form entry** and **CSV upload** for employee data. Included **date filters** and **Excel/CSV export**. Designed a modular UI and RESTful APIs for smooth performance.

### EV Charging Station Booking (Full stack Web App)

01/2025 - 03/2025

A project focused on electric vehicle charging station management and booking

- Developed an end-to-end EV station platform for bookings, payments, and real-time map integration
- Technologies: React.js, Node.js, Bootstrap, MySQL, Leaflet.js
- Features: User authentication, leaflet.js Maps integration, secure data handling
